-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

Regarding claim 1, the term "specially" renders the claim indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Claims 4-16 objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to the other claims in the alternative only. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Okuyama et al. [US 5,262,763].

Regarding claim 1. Okuyama et al. disclose a watch [figures 19a-22], comprising a case [1, 8] at least one watch movement [not explicitly numbered] located in the case, and at least one display [2, 5] to display the time of day or other information, wherein at least one section of the watch is movable, specifically, rotatable, wherein the case is composed of an outer case and an inner case, and the inner case [1] is movably attached to the outer case [3], as a result of which a previously nonvisible side of the

movable inner case of the watch moves so as to lie on top, characterized in that the at least one display is located on the inner case, and that the inner case is able to fold out of the outer case so that at least one additional laterally oriented display [11] is visible [the watch is rotatable folded open or close at hinge 72].

Regarding claim 2. Okuyama et al. disclose a watch characterized in, that the inner case [1] has two opposing horizontal displays [2 and 5].

Regarding claim 3. okuyama et al. disclose a watch characterized in that in the folded-shut state the then nonvisible display [5] and the nonvisible lateral display [11] are de-energized [figures 21-22].

Conclusion

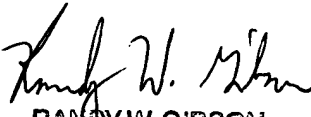

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Schlup [US Des. 352,469]; Yamada et al. [US 4,985,878].
